924(c)(1)(A)  
Original Sentence: Prison - 60 Months; TSR - 24 Date Supervision Expires: 9/24/2010  
Months

---

**PETITIONING THE COURT**

To modify the conditions of supervision as follows:

- 16 You shall undergo a substance abuse evaluation and, if indicated, enter into and successfully complete an approved substance abuse treatment program, including aftercare. You shall contribute to the cost of treatment according to your ability. You shall allow full reciprocal disclosure between the supervising probation officer and treatment provider.
- 17 You shall abstain from the use of illegal controlled substances, and shall submit to urinalysis testing, as directed by the supervising probation officer, but no more than six tests per month, in order to confirm continued abstinence from these substances.

**CAUSE**

The offender completed his 60-month term of confinement on September 25, 2008, to begin a 2-year term of supervised release. The offender released from the Residential Re-entry Center (RRC) located at the Franklin County, Washington work release facility. On September 25, 2008, the offender met with the probation officer to go over conditions of supervised release. At the time the offender met with the probation officer, the offender provided a urine sample, which tested positive for amphetamine. When questioned by the probation officer, the offender reported he was given an unknown medication, from a stranger on a bus for his sinuses on September 24, 2008, while still at the RRC. The offender later admitted to knowingly taking an "upper," knowing it was a stimulant. Subsequent urine tests have been negative.

Prob 12B

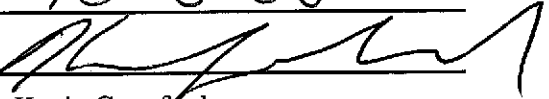

**Re: Carpenter, Michael Eugene, Jr.****October 6, 2008****Page 2**

The offender was admonished by the probation officer for his behavior and was advised of the potential consequences. As the probation officer cannot prove that the ingestion of the controlled substance occurred while the offender was on supervision, no violation request will be made of the Court at this time. The probation officer is requesting the Court modify the conditions of supervised release to include a urine testing condition and substance abuse treatment, which will be imposed if needed. The offender has agreed to the proposed modification and has signed a waiver, which is attached for the Court's review.

The offender has displayed very poor judgment very early in the supervision process and will require close supervision. The offender has been advised that any further violation behavior will result in a return before the Court for revocation proceedings.

I declare under penalty of perjury that the foregoing is true and correct.
